## Containers

### ● kobe-kibana-configuration

Image

curlimages/curl:7.70.0

Status

Ready Started Reason  
**false false Completed**

Commands

```
curl
```

Arguments

```
-X POST  
kibana--kibana:5601/api/saved_objects/_import?overwrite=true  
-H 'kbn-xsrf: true'  
--form 'file=@/etc/config/export.ndjson'
```

Mounts

Name	Read Only	Mount Path	Sub Path	Source Type	Source Name
config-volume	false	/etc/config	-	ConfigMap	kobe-kibana-config
be-api-access-nxlm9	true	/var/run/secrets/kubernetes.io/serviceaccount	-	Projected	-

## istio-proxy

Image

docker.io/istio/proxyv2:1.12.0

### Status

Ready	Started	Started At
true	true	2021-11-29T14:45:30Z

### Environment Variables
